## DETAILED ACTION

### *Election/Restrictions*

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I - claim(s) 1-12 and 17-20, drawn to a sample arraying/assembling device with a distribution section and a method of distributing samples.

Group II - claim(s) 13-16 and 21-23, drawn to a sample arraying/assembling device with detachable components and a method of assembling components.

Group III - claim(s) 24, drawn to a wound body.

Group IV - claim(s) 25, drawn to a sample arraying/assembling device comprising an assembly body.

Group V - claim(s) 26, drawn to a sample arraying/assembling device having a translucent or semitranslucent pipette tip and an optical acquisition section.

2. The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The special technical feature of Group I is a distribution section with a method of distributing samples claimed therein which is not present in Groups II-V. The other claimed special technical features are detachable components with a method of assembly for Group II, a wound body for Group III, an assembly body

for Group IV, and a translucent/semitranslucent pipette tip and an optical acquisition section for Group V.

3. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made **with or without traverse**. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to BRYAN T. KILPATRICK whose telephone number is (571)270-5553. The examiner can normally be reached on Monday - Friday, 7:30 am - 4:00 pm.
